

THE TEKNEK SL CLEANER RANGE

teknek

An ITW Company

TEKNEK SLIM LINE CLEANER RANGE

An ITW Company

SL and SLmax have been developed to provide a simple delivery system for the "Teknek Cleaning Cores". Suitable for slow speeds and able to be installed in small spaces, the SL range allows Teknek contact cleaning to be installed on many more applications e.g. digital printers, bagging machines, medical packaging machines, cleaning laminating or calendar rollers.

TEKNEK CLEANING CORE - made in Teknek

The Cleaning Core is the most important and unique aspect of any Teknek cleaning machine.

Knowledge

Innovation

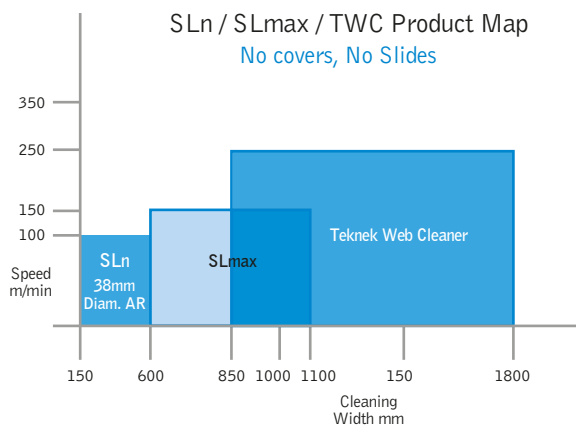

Value

Without the "core" it's only a conveyor

FEATURES	BENEFITS
Teknek Cleaning Core	Highest performance cleaning rollers available worldwide
Narrow profile, light weight rollers	For easy installation in small areas. Low rolling resistance
360 deg mounting	Can clean any web path – single or double sided
Integrated to the host machine	No operator required, no training required
Easy access to Cleaning Core	Reduced down time
Nanoclean core available	Cleaning core will not transfer anything to film

OPTIONS

- Active anti static system
- Mounting brackets
- Single or double sided
