

static control made Easy!

Product Specifications

The EasION IQ 4.1 performs at its optimum between a distance of 50 mm and 500 mm and is available in effective lengths of

300 and 4920 mm, in increments of 60 mm.

Effective length (n - 1) x 3

Static elimination Anti-static bars

EasION IQ 4.1

Ongoing research and innovation have lead to a compact anti-static bar with a 24V DC supply voltage.

Outstanding performance and unique features define the EasION IQ
4.1. This antistatic bar will outperform any AC technology anti-static bar currently on the market.

The rugged EasION IQ 4.1 static neutralizing system, with reinforced profile offers superior deflection performance that minimizes damage due to (accidental) bending. The EasION IQ 4.1 has an integrated high voltage power supply and requires only a low voltage input of 24V DC. It is equipped with a standard M12 connector for the 24V DC input. The emitter points are shockless.

An LED indicates whether the bar is working properly or whether an error has been detected. On the connector an additional remote on/off contact is available and a signal indicating operation O.K. The EasION IQ 4.1 bar has light angled ends and protection classification IP66 wich allows easy cleaning. Universal mounting brackets are supplied for various mounting options.

The EasION IQ 4.1 can be used as stand alone anti-static bar but can also be connected to the Smart SLC (to be introduced Q2 2024)

Features

- + Incorporated high voltage power supply, input voltage 24V DC
- Standard M12 connector, straight or angled +
- Designed for industrial use and easy cleaning; (protection + classification IP66)
- Shockless emitter points +
- Universal mounting brackets +
- SLC compatible (SLC will be introduced Q2 2024) +

Universal mounting bracket
